

D.I.D.

DAIDO®

CORPORATION OF AMERICA

THE POWER SOLUTION

Daido's primary product, D.I.D chain, is the most dependable, highest quality industrial roller chain in the world. D.I.D's cutting edge technology, represented by D.I.D X-Ring, has been the leader in more than 120 countries in the world. D.I.D Brand Chain is the top selling motorcycle chain in the world. D.I.D's superior technology created the innovative

New Tech Chain Series to provide solutions for use in all types of environments. Daido is not simply a roller chain manufacturer. Daido is the most dependable "Total Solution Center" for any of your roller chain requirements.

Daido continues to improve and provide excellent service, one step ahead of the industry. Daido recently added Murtfeldt Kunststoffe GmbH's industrial chain guides and tensioners to our line of top quality roller chain. The "Material S Green" UHMW used in all Murtfeldt chain guides and self adjusting chain tensioners is the finest quality in the industry. They provide the lowest friction and the highest sliding property of any chain guide or tensioner. The ultimate combination of D.I.D chain used with Murtfeldt guides and tensioners yields the highest productivity with the lowest downtime; a goal which could never be possible using any of these individually.

Daido Corporation of America provides the synergy of the ideal marriage between D.I.D and Murtfeldt. Combining D.I.D's 70 years of experience with Murtfeldt's 50 years created "The Power Solution".

D.I.D STANDARD ROLLER CHAIN & CONVEYOR CHAIN SERIES

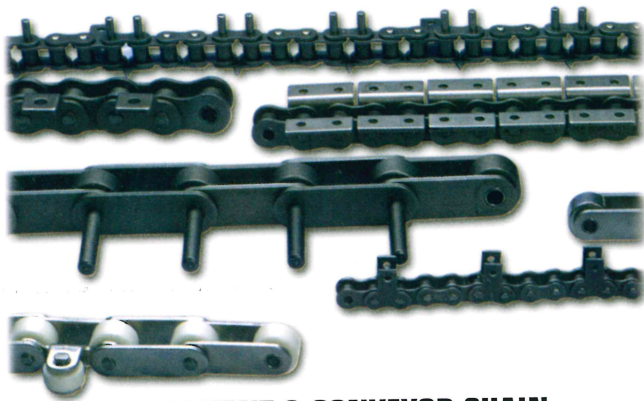

D.I.D STANDARD ROLLER CHAIN

The most dependable industrial roller chain available.

Reduce noise up to 10dB.

THE DRIVE SOLUTION

THE BEST VALUE

MURTFELDT CHAIN GUIDES & TENSIONERS

Utilize chain's maximum potential and minimize the downtime for maintenance.

SOLUTION

Daido Corporation of America...
We promise to be your most dependable partner of the 21st century.

Daido Corporation, the supplier of precision roller chain products since 1951, has recently been acquired by Daido Kogyo Co., Ltd. of Japan. The new company has changed its' name to Daido Corporation of America and will continue to market the worlds top quality roller chain, the D.I.D brand.

In October, 2002, Daido Corporation of America relocated its' corporate headquarters from New Jersey to Tennessee. This move has positioned Daido in the geographical center of the Power Transmission industry. The Tennessee headquarters has ample capacity to warehouse enough product to service all of North America. In addition, Daido's experienced staff, knowledgeable customer service, new computer system, five additional stocking facilities and five sales offices provide the best product availability and customer service in the industry.
